Languages

◔ Polish - Native

◔ English - Fluent

◔ Spanish - Communicative

Interests

♞ Playing chess

💃 Dancing bachata

⚛ Learning new things

📋 Building habits

📚 Reading

🏋 Being active

Summary

Front-end developer that has 1 year of experience developing web applications and building websites. Broadens his knowledge by actively contributing to Open Source projects.

Projects

Habit Tracker App

React | React Query | React Router | Firebase | Material-UI

Habit Tracker is my final project for Harvard's CS50 course. It's built as MVP (minimal viable product) and its core functionality is to track user's habits.

Pocket Globe App

React | D3.js | TopoJSON | Material-UI

The app uses D3.js and React to create a highly interactive and responsive globe. It connects to various APIs to get data about selected country.

Work experience

Bartender/Waiter
Dolphin Bar & Restaurant, Mallorca, Spain
May 2018 - Oct 2019

Working in one of the busiest restaurants on the island I became a better team player. Additionally it was a great opportunity to learn Spanish and further improve my English.

Customer Service Assistant
Clothes2Order, Manchester, United Kingdom
Mar 2017 - May 2018

Being a part of Customer Service team and talking over the phone with clients from all around the world helped me improve both my communication and collaboration skills.

Production Operative
Marks & Spencer, Castle Donington, United Kingdom
Dec 2015 - Jan 2017

Working for the first time abroad and overcoming the challenges along the road taught me how to quickly adapt to new environments.

Certificates

CS50x: Introduction to Computer Science — Harvard University

Responsive Web Design Certification — freeCodeCamp

Algorithms and Data Structures Certification — freeCodeCamp

Data Visualization Certification — freeCodeCamp

Front End Libraries Certification — freeCodeCamp

Education

Warsaw University of Technology
Sep 2014 - Sep 2015
Architecture and Urban Planning
